Welcome to Happy Pack Dog Training Club

Dog Training One Course

The aim of Happy Pack is to improve owners understanding of their dogs and improve the bond between dog and owner creating a very Happy Pack. Training is both fun for you and your dog. It offers your dog mental stimulation which goes a long way to improving the mental health of your dog and strengthens the bond between owner and dog. Positive reinforcement is the only training method used, which means using a treat as a reward when the dog does the correct action.

The course includes Elementary Obedience and teaches you how to better guide your dog without dampening it's enthusiasm for life.

By the end of the course your dog will be able to sit, stand, down, watch, stay, wait and recall, a little heel work and retrieval. We cover impulse control so that dogs learn to control themselves. There is monitored and carefully supervised socialization and all the dogs enjoy the obstacle/confidence course.
